Heat Presses

MicroTec TC Dual Head Manual Auto Open

TC-15 / TC-20

380x380mm / 500x400mm

- Double Platen
- Electro Magnet Close & Auto Open
- Easy Digital Time & Temperature Control
- Auto Open Auto Alarm
- 5 Year Element Warranty
- 1 Year Parts Warranty

-Features

The new TC-15 38x38CM or TC-20 40*50CM auto open heat press machine is a entry level accurate double base plate heat transfer press. With the two work stations, it offers a particularly generous working area for comfortable positioning of transfer objects.

If you want a medium size heat press but with good pressure and 2 working stations, then the TC series is a good start. The heat press requires no air feed.

It utilises an electromagnet release mechanism with gas spring assist to guarantee opening at the end of every print cycle. Its slide out under base ensures user to load garments/samples and place transfers/labels in a breeze.

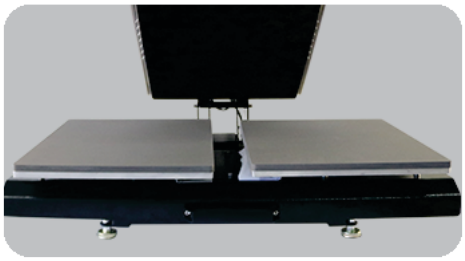
Heat Presses

Technical Information

Model No.	TC-15A/ TC-20A/ TC-B
Machine Type	Auto Release, Double-Station
Platen Size	15"*15"/ 16"*20"(38*38cm/ 40*50cm)
Under Plate	Left & Right Slider
Controller	GY-06 Digital Time & Temp. Control
Printable Articles	Thin Materials
Air Compressor Required	No
Voltage	110V/ 220V
Power	1.6KW/ 1.8KW
Time Range	0-999 Sec.
Maximum Temp.	225C
Temperature Accuracy	±0.5%
Packing Size(cm)	Separate packing,91.5*65*65.5cm(machine body), 109*61.5*24.5cm(base plate)
Gross Weight	58.25(machine body)/44.60kg(base plate)

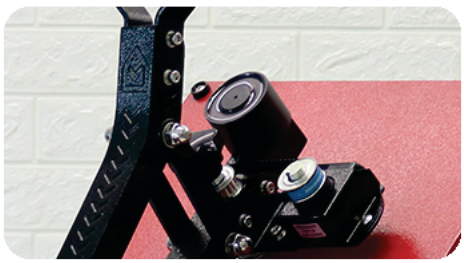
GY-06 Touch Screen Digital Controller

This controller completes the heat presses functionality. It is easy to set dwell time, temperature. The heat press will auto open by itself.



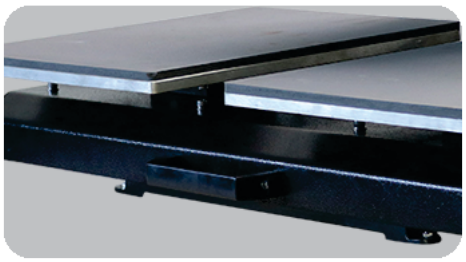
Double stations

You can move the table smoothly from one side to the other. It will ensure high efficiency.



Magnetic Auto Open Release

Requiring no air feed, this auto open heat press utilises an electromagnet release mechanism with a gas spring.



Left and right slider under platen

The tables can easily slide to locate under the platen.
